

**The British Columbia Civil Liberties Association
Presents A Multi-Disciplinary Approach to Law Reform:**

BEYOND PROHIBITION Legal Cannabis in Canada

It is far past time that cannabis be removed from the Criminal Code and that a workable system of regulation replace Canada's current social policy of prohibition. Numerous studies and government commissions have concluded that prohibition is a failed social policy that does more harm than good. This conference, however, will not focus on the harms of prohibition. Instead, participants from a wide variety of fields will demonstrate the ramifications of a legal cannabis environment.

Discussion Topics Include

- Models for a Regulatory Environment – Recreational and Medical
- Law Enforcement and Judicial Resource Allocation
- Economic Impacts of Legalized Marijuana
- International Treaty Ramifications
- Public Health Perspectives
- The State of Cannabis Research
- Safe, Legal Cannabis Cultivation

Date of Conference: Saturday, May 8, 2004

Location: The Wosk Centre for Dialogue, Vancouver BC

Keynote Speaker: The Honourable Senator Pierre Claude Nolin

Tickets are available for \$20 each. Ticket price includes admission to the conference, a copy of all written materials presented at the conference and two coffee services. Lunch is not currently included, but will be provided budget permitting. Seating is limited and a maximum of two tickets per person may be purchased.
